

City of Catoosa

**Catoosa Police Department
Severe Weather Shelter Registration Program**

The City of Catoosa Police Department is initiating a Severe Weather Shelter Registration Program. This **free & voluntary** program allows residents, who own a personal severe weather shelter in the Catoosa city limits, to register their shelter with the Catoosa Police Department. Shelter registration is part of our effort to be proactive in response to rescue situations that can occur as a result of severe weather.

This program will provide rescue personnel with valuable timesaving location information, should a storm shelter exit be blocked by debris or structural damage caused by severe weather.

Keep in mind that the emergency services will be overwhelmed in the event of a tornado. We encouraged shelter owners to include an out-of-town accountability contact as part of their personal severe weather plan. This program provides an additional safeguard against being trapped in a shelter.

Always be prepared for severe weather. Keep a prepared go-bag for your family and take it with you into your shelter. You can visit FEMA or Red Cross for suggestions to take with you in your storm shelter.

To register a storm cellar, Safe Room, or other personal severe weather shelter, contact the Catoosa Police Department at 266-2424 or the Catoosa Fire Department at 266-1747. Information recorded will include the owner's name, location of shelter, owner telephone contact number(s), and a brief description of the shelter type and specific location.

This information will be maintained by the Catoosa Police Department and used only in the event of structural damage from severe weather or other related incidents.
